

## **Job Posting**

**Job Title:** Oilfield Lube Technician  
**Location:** Roosevelt, Utah  
**Reports to:** Superintendent

## **Job Description**

The focus of this position is engine maintenance at oilfield facilities, especially performing oil changes and basic engine upkeep and inspections. The primary equipment the tech will be concerned with are gas-fired pump jack engines, as well as other small motors and engines throughout the Uinta Basin. This position reports to and supports the efforts of the mechanics and their supervisor. Initiative, critical thinking and good communication are a must. Assertiveness and trainability will be rewarded.

## **Duties and Responsibilities**

- Change oil and filters, check fluids, tighten belts, grease components, and check compression on engines.
- Conduct preventative and corrective field mechanical service on oilfield equipment.
- Test equipment for proper operation.
- Direct, coordinate, and assist with scheduled and unscheduled equipment repairs and maintenance.
- Follow all Health, Safety, and Environmental procedures.
- Perform inspections required by company and government entities.
- Submit maintenance reports and other necessary paperwork using Microsoft Excel, Word and True Context.
- Assist mechanics with repairs on oil field equipment.
- Support the achievement and maintenance of emissions targets
- Complete additional tasks as requested by the mechanics and their supervisors

## **Job Skills and Requirements**

- Basic understanding of combustion engines.
- Requires a basic understanding of electrical circuits.
- Able to lift objects weighing up to 75 pounds.
- Have a valid Utah Driver's License, clean driving record and medical card.
- Must be detail oriented.
- Must be able to work in all weather conditions.
- Must not have been terminated for cause by Finley Resources
- Must be able to pass a background check and a drug test.
- Must be eligible to work on the Uintah/Ouray Reservation.
